## 1. Policy

### 1.1 Overview

Sedibeng District Municipality has developed its Vaal Teknorama Policy to regulate the manner in which financial activities relative to the museum is conducted. This in recognising its:

- i. community orientation; and
- ii. the need for good governance.

The policy is promotes a transparent and codified internal control system aimed at promoting its core District Objectives to ensure that the limited resources at the disposal of Sedibeng District Municipality will be focused towards serving the various stakeholders in the pursuit of their interactions with Sedibeng District Municipality both efficiently and congruent to approved budgets and broader financial policies of Sedibeng District Municipality, whilst minimizing the temptation of misuse of municipality funds.

The policy is applicable to all Sedibeng District Municipality staff charged with discharging municipality related activities in this regard. It seeks to institute the necessary control measures to facilitate the daily activity of the municipality by providing:

- i. A guideline for all stakeholders both internal and external;
- ii. An internal dynamic document detailing the processes required for the efficient discharge of duties to ensure the efficient administration of the Sedibeng District Municipality budgets

### 1.2 Purpose

The policy is intended to provide a framework for Municipality's special purpose vehicle and implement effective processes to sustain cash flow in a manner prescribed in the Municipal Finance Management Act, 2003 and National Treasury Regulations.

We define museum in the manner as held by the SAMA Accreditation Handbook 1 which states that:

*A museum is defined as a permanent, non-profit institution, in the service of society and open to the public, which acquires, conserves, researches, communicates and exhibits, for the purpose of study, education and enjoyment, material evidence of man and his environment.*

*Museums are community and educational centres which exist to interpret the cultural and natural world to the public through activities, programmes and the use of real objects from the collections. Conservation, research and education are the central functions of museums.*

### **1.3 Objectives**

Vaal Teknorama meets all the above criteria and seeks to be at the forefront of the cultural legacy of the Vaal triangle, whilst recognizing that the museum as:

The responsibility of fiscal regulation of the heritage sites lies with the Accounting Officer and Chief Financial Officer, or delegated official, who has to ensure that reasonable controls exist to support the implementation of policies. The HOD has to ensure all policies and procedures are communicated to and implemented by the responsible individual(s).
